attempt to get them. Unfortunately, after stepping to the swamp, I soon discovered the water was deeper than the tops of my boots (18 inches), and I almost filled the boots with water. EEK!. I managed to collect the specimen by using some tree pruners and stretching out. Mission accomplished with a little effort.

Roundleaf Sundew  
(*Drosera rotundifolia* L.)

The last stop was the Sundew Bog. I collected a specimen of Roundleaf Sundew (*Drosera rotundifolia* L.) for the record. It was not blooming, but I took a three plants anyway. I may collect some more when it is blooming later in the season.
